My name is Miljana Jugovac, I was born on April 22th, 1988, in Pula, Croatia.

In year 2007, I graduated from the School of Applied Arts in Rijeka, Croatia, and after that I started working independently, both within and outside the profession, given my desire and willingness to grow personally, and to explore and expand my skills and perspectives.

In the last 15 years, I have tried and worked in several branches(trade and catering , interior design, Casino-slot club, food and beverage preparation...), and in addition I have enrolled in a qualification in the economic sector, which I am just finishing.

But I am a team player and I love exploring, so I found my place in a multinacional company British American Tobacco, on the workplace of an operator, where I was given the opportunity to develop the personal skills I aspired for and the multicultural envirnoment that I wanted.

Both privately and professionally, I love and want to build on experience, knowledge and getting to know and understand different cultures, jobs, people, envirnoment.

I became a member of the Union immedietly after my hiring and became a Union commissioner in the youth section in order to further develop my activity and help others through my work. I also actively participate in Union training through proffesional educations.
